

Neon Party

Dark, exciting and a bit funky. Your guests will be transformed to the underground of New York subway dance party or a Studio 54 like experience; a bit risqué, a whole lot of fun and darkly adventurous.

EVENT EXPERIENCE

A neon event is usually done in the dark and the darker the better. Neon shows up best when all the overhead lights are out and only the UV sensitive lighting is used. Depending on the event space, you might need quite a bit of UV lighting to make an impact. One attendee described the experience as a 'fun, exciting underground subway feel' for the neon event that she had attended.

COLORS & TEXTURES

This event calls for hot pinks, blues, greens, and oranges. White will also be a major component because it picks up the UV rays from the lighting and really pops!
